## **BM&T announces acquisition of Interimconnect**

Leading turnaround management firm BM&T has announced its acquisition of Interimconnect, the interim management provider.

Interimconnect is a network of around 1,600 senior and experienced interim managers covering all disciplines and all regions of the UK.

This extensive database allows Interimconnect clients to rapidly get a shortlist of suitable interim managers for a role and to contract directly with the successful candidate with no intermediary mark-up. The network is free to join for interims with fees only payable on winning work.

Mike Measures, the founder of Interimconnect, will be retiring at the end of the year following a handover period. The firm's new Executive Administrator will be Victoria Morley.

BM&T CEO David Bryan said: "We have known Mike Measures and Interimconnect for many years and have worked in the network in the past. Mike has done a great job building the business over the years and we wish him well in his retirement.

"The Interimconnect model has many attractions to both clients and interim managers and is unique in the marketplace. We do not intend to make any changes to that.

"The success of the network depends on having a large, diverse database of quality interims as well as a broad base of referral clients. We intend to maintain and grow that and will strive to win as many assignments as possible."

Mike Measures said: "I believe the wider BM&T European Restructuring Solutions network together with its international and private equity connections will help achieve growth. I am pleased that BM&T have acquired the business and confident it will continue to grow and retain its place as the leading interim management provider."

Interimconnect will continue to host network member meetings with the first under BM&T ownership in London on Tuesday, 20th November. A number of regional meetings are planned around the UK in the New Year.
